

PRODUCT DESIGNER

Asmik Mikaelian

Discovery & Strategy · Growth · Design Systems

PROFILE

Product Designer with a focus on discovery and product strategy. I help teams identify the right features to attract and retain users — through user research, product audits, and concept validation. I set design direction, mentor designers, and work closely with PMs and engineers to ship work that moves metrics.

EXPERIENCE

Product Design Consultant — Captic VRland (Web3)

Oct 2024 – Jan 2025

Onsite · Vienna, Austria · Spatial Computing & Social VR · NDA

- Full end-to-end UX audit: identified **12+** critical dead ends blocking activation and retention.
- Surfaced **32** prioritised growth opportunities — adopted as Q1 2025 product roadmap.

Product Designer — Netology (EdTech)

Jan 2024 – Present

Remote · Moscow, Russia · 16,000-video platform · Sberbank ecosystem

- Led end-to-end design across onboarding, activation, AI evaluation, and navigation for hundreds of thousands of learners.
- Redesigned platform IA: activation **+25%**, time-to-orientation 3 sec within one quarter.
- AI evaluation system across 4 dimensions: completion doubled, engagement **+60%**. Drop-off **-17%**, onboarding **-42%**.

Product Designer — Tickeron Inc. (FinTech)

Jul 2021 – May 2024

Remote · San Francisco, USA · AI trading platform · sole designer across 6 teams

- Owned all product design: trading dashboards, AI portfolios, payments, subscriptions, mobile app.
- Checkout redesign 8→3 steps: abandonment **-41%**, subscriptions **x2** in 90 days.
- Onboarding drop-off **-47%**. Design system 0→1: **200+** components across 6 teams, handoff **-60%**.

UX/UI Designer — AlfaStrakhovanie (B2B)

Oct 2018 – Mar 2019

Remote · Moscow, Russia · Life-critical monitoring · 400+ workers, 120+ sensors

- Real-time dashboard: location, battery, emergency alerts — readable in 5 sec. Check-in/out under 90 sec, coverage **+67%**.

UX/UI Designer — L'Oréal / Yokogawa / Gazprom (via SpetsTek)

2016 – 2018

Saint Petersburg, Russia · TRIM EAM/APM platform · industrial & energy clients

- Maintenance-management systems and mobile inspection apps for manufacturing plants and power stations.
- L'Oréal — multi-year phased rollout for Russian plant. Yokogawa — field diagnostics tablet app. Gazprom — power station monitoring system.

SKILLS

Discovery & Strategy

User research · custdev · UX audit · CJM · competitive analysis · feature prioritisation

Conceptualization

Wireframes · AI prototypes (v0, Framer AI) · user flows · concept validation

Testing & Metrics

Usability testing · A/B testing · funnel analysis · Mixpanel · FullStory · Maze

Design Systems

0→1 libraries · Figma variables · Auto Layout · token architecture

AI Tools

v0 · Framer AI · Cursor · Claude · Midjourney

Tools

Figma · ProtoPie · Jira · Notion · Confluence

EDUCATION

Master's in HCI

Fachhochschule Salzburg, Austria
2023 – 2025

Bachelor's in Information Systems

ITMO University, Russia
2012 – 2016

LANGUAGES

- Russian — Native
- English — Advanced
- Armenian — Conversational
