

ASMIK MIKAELIAN

Senior Product Designer

Dubai, UAE | asmikaelyan@gmail.com | [Linkedin](#) | [Portfolio](#)

PROFILE

Product Designer with **9+ years** in **FinTech, EdTech, SaaS and complex B2B systems**. I own products **end to end**, from research and strategy to shipped UI. I work closely with **PMs and engineers**, **influence product direction**, **align stakeholders**, **prioritize**, run **workshops**, **mentor** other designers and support **cross-team and strategic product decisions**. I have built a **design system from scratch** and redesigned onboarding, checkout and retention flows. I use **AI** across research, prototyping and testing, and my **developer background** (React, React Native) helps me ship faster. I decide with **metrics, user research and experiments**.

EXPERIENCE

Senior Product Designer | [Netology](#) Jan 2025 – Aug 2026

B2C EdTech platform for professional growth · 1.5M+ users · 130K graduates

- Grew activation by **17%** on a subscription video platform by redesigning the onboarding and content discovery flow
- Improved D7 retention from **21% to 40%** by adding gamification features and an achievement dashboard
- Cut expert onboarding time by **50%** by replacing a multi-step profile form with a guided flow
- Worked with **PMs and engineers** to **influence product direction**, **prioritize** the roadmap and **align stakeholders** on strategic product decisions
- Ran **workshops** to reach **cross-team decisions** and **mentored** other designers
- Integrated a large bank **design system** into a platform that previously ran on **10 different systems**

Product Design Consultant | [Startup](#) | Vienna, Austria Sep 2024 – Jan 2025

B2B platform for building and managing immersive 3D virtual worlds in the browser

- Found **12+ UX dead ends** and **32 growth opportunities** through a full platform audit and user research
- Ran **workshops** to **prioritize** the findings, then redesigned World Chat, Personal Chat, profile sharing and onboarding to improve social discovery

Senior Product Designer | [Tickeron](#) | San Francisco, USA Jul 2021 – Aug 2024

B2C AI-powered platform for retail investors with trading bots and predictive screeners

- Built the **design system from scratch**: 200+ components used across 6 teams, cutting handoff time by **60%**
- As the sole designer across **6 teams**, worked with **PMs and engineers** to **prioritize**, **align stakeholders** and make **cross-team and strategic product decisions**
- Improved checkout completion by cutting the purchase flow from **8 steps to 4**
- Reduced mobile drop-off by **20%** by redesigning key product flows and the mobile experience
- Grew alert setups by **32%** by simplifying the flow and making the value clear to users
- Increased annual revenue by **2%** with a targeted promotional campaign for new users

Product Designer | [MinePASS](#) Sep 2019 – Jul 2020

B2B industrial platform for mining fleet dispatch and underground worker safety tracking

- Designed a **real-time monitoring system** used by **400+ workers**, pulling data from **120+ sensors**
- Built the alarm flow so operators could identify and respond to active alerts **within seconds**
- Created the **design system from scratch**: reusable components and patterns for a complex industrial UI

UX/UI Designer | [SpetsTek](#) Feb 2016 – Feb 2019

B2B enterprise asset management software for Gazprom Neft, L'Oréal and Yokogawa

- Designed desktop and mobile interfaces for **TRIM**, an enterprise asset-management platform used by engineers and field technicians
- Designed a maintenance-management system for monitoring power station equipment at **Gazprom Neft**
- Built a maintenance system and mobile inspection app for **L'Oréal's** manufacturing plant
- Designed a mobile diagnostics tool for **Yokogawa** engineers for real-time equipment monitoring

EDUCATION

Master's in Human-Computer Interaction | Paris Lodron University of Salzburg 2024 – 2026

Bachelor's in Information Technology | ITMO University Sep 2012 – Jul 2016

SKILLS

Design	Figma, Sketch, Prototyping, Design Systems, Design Tokens, Component Libraries, User Research, Usability Testing
Product	0→1 Product Design, UX/UI, Information Architecture, Customer Journeys, A/B Testing, Data-driven Design, Onboarding and Retention, Enterprise Workflows, Real-time Dashboards and Monitoring
Platforms	Web apps, Mobile apps, B2B SaaS, FinTech, EdTech, Industrial and Enterprise software
Technical and AI	React, React Native, Front-End Development, AI Prototyping, Cursor, v0, Claude, Framer AI, Midjourney
Collaboration and Leadership	Working with PMs and Engineers, Influencing Product Direction, Stakeholder Alignment, Prioritization, Workshops, Mentoring, Cross-team Decisions, Strategic Product Decisions
