ABOUT

Product Designer with a focus on discovery and product strategy. I help teams identify the right features to attract and retain users — through user research, product audits, and concept validation. I set design direction, mentor designers, and work closely with PMs and engineers to ship work that moves metrics.

SKILLS & TOOLS

Discovery & Strategy	User research · custdev · UX audit · CJM · competitive analysis · feature prioritisation
Conceptualization	Wireframes · AI prototypes (v0, Framer AI) · user flows · concept validation · stakeholder presentations
Testing & Metrics	Usability testing · A/B testing · funnel analysis · Mixpanel · FullStory · Maze · activation · retention
Design Systems	0→1 component libraries · Figma variables & Auto Layout · token architecture · documentation
Tools	Figma · ProtoPie · Cursor · v0 · Claude · Midjourney · Jira · Notion · Confluence
