

ASMIK MIKAELIAN

Senior Product Designer • Growth & Conversion • B2B & B2C

asmikpod@gmail.com • asmikmk.github.io/Portfolio2 • Dubai, UAE • EMEA timezone

ABOUT

Senior Product Designer with 5+ years owning end-to-end user experiences across B2B and B2C products — from discovery and research through launch and post-release iteration. I design for measurable outcomes: activation, conversion, retention. I align every design decision with business goals and measure its impact. I use AI tools (v0, Cursor, Claude, Framer AI) to prototype and validate fast, without losing design quality.

SKILLS & TOOLS

End-to-End Design	UX ownership • user research • competitive analysis • wireframes • prototypes • post-launch iteration
Growth & Conversion	Onboarding flows • checkout funnels • paywalls • A/B testing • funnel analysis • activation • retention
AI-Native Workflow	v0 • Framer AI • Cursor • Claude • Midjourney — rapid prototyping and concept validation
Product Metrics	DAU/MAU/WAU • CR • CTR • ARPU • churn — data-driven design decisions and impact measurement
Design Systems	Figma • component libraries • token architecture • Auto Layout • design standards • documentation
Research Methods	User interviews • custdev • usability testing • CJM • session replay • Mixpanel • FullStory • Maze

EXPERIENCE

Product Design Consultant — Captic VRland (Web3) Oct 2024 – Jan 2025

Onsite • Vienna, Austria • UX audit & product strategy • NDA

- Owned end-to-end discovery: research, audit, and feature prioritisation — **32** growth opportunities surfaced, adopted as Q1 2025 roadmap.

Senior Product Designer — Netology (EdTech) May 2024 – Present

Remote • Moscow, Russia • 16,000-video platform integrated into Sberbank's ecosystem

- Owned UX end-to-end across onboarding, activation, and navigation for a platform with hundreds of thousands of learners.
- Redesigned platform IA and navigation: activation **+25%**, time-to-orientation cut to 3 sec — measured post-launch.
- Designed AI evaluation system: completion doubled, engagement **+60%**. Iterated based on analytics and user feedback.
- Reduced login drop-off by **17%** and expert onboarding time by **42%** through research-led flow redesign.

Senior Product Designer — Tickeron Inc. (FinTech) Mar 2019 – May 2024

Remote • San Francisco, USA • AI trading platform • payments, subscriptions, dashboards

- Owned product design across web and mobile — B2B dashboards and B2C subscription flows — as sole designer across 6 teams.
- Redesigned checkout from 8 steps to 3: abandonment **-41%**, subscriptions **×2** in 90 days — highest-impact project in company history.
- Reduced onboarding drop-off by **47%** through user research, usability testing, and iterative redesign.
- Built design system 0→1: **200+** components, adopted across 6 teams — handoff time **-60%**.

UX/UI Designer — Alpha Smart Holding (Industrial Safety, B2B) Oct 2018 – Mar 2019

Remote • Moscow, Russia • Life-critical monitoring system • 400+ workers, 120+ sensors

- Designed real-time monitoring UI and emergency alert flows — readable in 5 sec, check-in/out under 90 sec, coverage **+67%**.

UX/UI Designer — SpetsTek (Enterprise EAM/APM Platform) 2016 – 2022

Saint Petersburg, Russia • TRIM EAM/APM/CMMS platform • industrial clients • desktop & mobile

- Designed desktop and mobile interfaces for TRIM — an enterprise asset-management platform used by maintenance engineers, field technicians, and warehouse teams in real production environments.
- L'Oréal — maintenance-management system and mobile inspection app for Russian manufacturing plant, multi-year phased rollout.
- Yokogawa Electric — mobile field-diagnostics tool for service engineers with automated reporting.
- Gazprom Neft — asset-management and reliability UX for refinery-level operations.

EDUCATION

Master's in Human-Computer Interaction (HCI) — Fachhochschule Salzburg, Austria 2023–2025

Bachelor's in Information Systems — ITMO University, Russia 2012–2016

Languages: Russian (Native) • English (Advanced, B2+) • Armenian (Conversational)
